

IRMA AND DISTRICT HOME TOWN  
NEWSPAPER FOR THE PAST  
TWENTY YEARS

# IRMA TIMES

Vol. 22. No. 3.

Irma, Alberta, Friday, July 16th, 1937.

\$2.00 per year in advance; 5c per copy

## Minutes of Monthly Meeting Kinsella Municipal District

Minutes of meeting held at Kinsella at 10 a.m., July 9th, 1937. Full Council present.

Cr. Zelinski that minutes be passed as read. C.U.

Cr. Lison that statement of receipts and expenditures be passed as read. C.U.

Cr. Lison that relief be no longer given to R. Fuder and that the sec'y notify Mr. Fuder to this effect. C.U.

Cr. Candy that bylaw No. 40, being a bylaw for the purpose of borrowing \$470 from the Bank of Commerce, Hardisty, the said bank being required to repay Prov. Govt. for the advances of seed grain made to the M. D. during the year 1937, be passed as its first reading. Cr. Zelinski second reading be passed. Cr. Bawden that third reading be passed. C.U.

Cr. Overbo that Mr. T. Candy be appointed as weed inspector for the year 1937, in place of Mr. J. A. Waite who was previously appointed. C.U.

Cr. Lison that sec'y be hereby appointed to deal with the bills owing by ratepayers to the Viking hospital. C.U.

Cr. Bradley that sec'y write to the Dept. informing them that owing to the excessive heat and dry high winds the situation of this M.D. in regard to the crop, pasture and feed is very serious and that unless heavy rains fall that only seed will be threshed and also that the feed will be practically nil.

The following correspondence was read and filed for the attention of the secretary: Workmen's Compensation board re assessment; Dept. of Mun. Affairs re Collections; St. Anne's hospital re accounts; General Hosp. Killem, re accounts; Red Cross re grant; Dept. of Agriculture re

seed grain guarantee; O. A. Pensons Board re Mr. and Mrs. Jacobson; J. A. Waite re weed inspection; H. Koll re road allowance; Viking Hosp. re accounts; Hail Ins. Board re discontinuance of operations; Dept. of Public Works re bridges; M. Nease re placing of signs on highway at Kinsella.

Cr. Candy that the following bills be passed for payment:

R. Sheet	\$ 74.85
Service Garage	5 8.00
W. Boyd	1 2.00
Telephone, 4 months	G 16.00
J. D. Adams	S 6.97
B. H. Green	G 22.87
P. M. Hospital	G 60.00
Cash Store	G 5.00
R. Sheet	S 69.00
Irma Trading Co., Fuder	G 30.00
R. Dragging Sheet	1 50.00
E. J. Kelly Co.	G 5.00
J. D. Adams	G 5.55
T. Severson, Smutz	G 2.00
A. P. Home	G 24.00
Postmaster	G 25.00

Cr. Overbo that meeting adjourn to 10 a.m. on Tuesday, August 10, 1937.

B. H. Green, Sec.-Treas.  
Kinsella, Alberta.

## BASEBALL

On July 12th the Irma Junior baseball team journeyed to Mannville for the junior tournament which turned out to be country baseball, no age limit. But were the juniors afraid? No! They went to work on Minburn and with L. Jones burning 'em in to Art Larson, they trimmed Minburn 7 to 4 runs.

In the final game with Mannville, Phil Inklin sent 'em in to Art Larson for a 6 to 0 victory, pitching a one-hit no-run game, a trick Phil seems to have a habit of. 'Bill Inklin hit 1 homer, 1 double, 4 singles in 7 trips to the plate, a near perfect day. Good luck, Bill.

'Are we proud of our juniors? Yes! Do the deserve support? Well, ask yourselves, when they are all local boys.

The line-up and batting order is: W. (Bill) Inklin 2 B. and P. Bob Collinger R. F. Art Larson C. D. Herbert S. S. A. Glasgow 1 B. P. Inklin P. and 3 B. Bob Simmerman L. F. Bob Charter C. F. L. Jones P. and 3 B.

When the local baseball team visited Holden recently to play a game they stopped in a restaurant there. As they sat down to the table the waitress noticed one of the boys busily waving his hat over the plate in front of him. "What's the matter?" asked the waitress, "Ain't the plate clean?"

"Well, you see," explained one of the boys, "that's our umpire and he can't resist dusting off the plate."

## WEDDING BELLS

A quiet wedding was solemnized at the Roman Catholic church, Irma, on July 12th, when Miss Ann Elizabeth Lerle, of Ryley, Alberta, became the bride of Mr. Geoffrey Leduc, of Fabyan. Rev. Fr. Jos. E. McGrane officiated. Among those present at the wedding were three sisters of the bride from Ryley, Mrs. Jevinger, Mrs. Comer and Mrs. Berg; also Mr. Berg, Mrs. Somers, Miss Sykes, Mr. J. D. Collette and Mr. and Mrs. Ben Sather. Mrs. Sather is a cousin of the bride.

After the ceremony the wedding party was invited to the Sather home for supper, after which the newlyweds left for their home north of Fabyan.

## TRAIN TRACKS AND CAR TRAILS

By Tun

Viking, June 6th. — Murky clouds filled the skies as we hit the trail from Winnipeg, and by the time we were well on the way to Portage la Prairie there was a downpour of rain that filled the pot-holes on the newly gravelled highway and made the going pretty tough. Mud and loose gravel splashed as cars passed each other and it wasn't many miles until our new car looked like somebody had thrown a ton of mud at it. This kept on through Neepawa and Gladstone, until reaching Dauphin, a distance of 212 miles from Winnipeg. From what we could see of the country through the mud-spattered windshield, it looked well-watered and the growing crops in fine shape.

Dauphin is one of the oldest towns in Manitoba and has now a population of over 2000. Many of our readers no doubt who have come from Manitoba have visited or lived near Dauphin. It is in the centre of a very fine district, rolling, wooded and productive of good crops. Leaving Dauphin about six in the morning we pressed on until reaching Roblin for breakfast. Next stop was Yorkton, Sask. where the wind from the west was blowing freely. We gassed up and were on our way in a short time. Timely rains had also made the crops look good around Yorkton, but we understand now (July 12th) the crops are suffering worse than those in the Viking district. The car buzzed merrily along through Foam Lake, Elfron, Wynyard, Lanigan, as far as Viscount, a distance of 189 miles from Yorkton. It took exactly nine gallons to make this distance against a high wind and some loose gravel. This was an average of 21 miles per gallon. This we thought was a good test and didn't keep any more records. The oil and the water stayed at the same level. The car lived up to all our expectations — and claims of the manufacturer. Saskatoon was only sixty miles to go so we pushed on and arrived in that city at 2 p.m. After an hour spent in the city we felt rested enough to go on and soon were on our way to North Battleford, which is quite a thriving city divided by the river into north and south Battleford. West of Battleford there is a stretch of 45 miles that is not gravelled. This was the only part of our tour where we encountered a dirt road. As it had not rained recently it was fairly pass-

able. Just why this part of the highway has been left in this shape we could not find out as we heard that when it rained this was an awful piece of road. Just west of Maidstone we struck the gravel again. The crops here looked fine as far as Vermilion and on to Innisfree where we took the trail south that brought us to home sweet home at 11:30 p.m. We had travelled a distance of 650 miles from Dauphin in a day.

In exactly three weeks we had covered over 5000 miles on train tracks and car trails and to say the least we were quite satisfied to have a happy landing at Viking.

People who left Ontario say 20 to 30 years ago, or the central states, and who have not been "back home" since then, will find a great change taken place. Where the town pump used to stand, you are apt to find an up-to-date filling station trimmed like a Christmas tree. Near the site of the old swimming hole stands a glue factory. The railroad tracks that used to be busy with trains now look neglected and overgrown with weeds, but a concrete highway passes nearby where heavily loaded trucks and cars whizz by at a dizzy pace. The friendly wave of the hand from the engineer in Old 96 is gone, and instead there is a traffic cop or a stop-and-go sign that tells you to keep moving. The streets of the old home town where you used to call everybody by their first name, are filled with cars and unfamiliar faces. The loneliness of it all is added when you visit the cemetery and see names of former school mates inscribed on the tombstones. You take a look at your graying hair (or bald head) and wonder why you have been spared. Some of the "dreams of your youth" now weigh two hundred pounds, and have sons and daughters just graduating from college. Yes, time passes on.

We came to the conclusion that a westerner is a westerner, and although the east is very inviting in many ways, the west and the wide open spaces have a certain charm that beckons you and holds you. What is it? Take a trip.

Many have told us that they have enjoyed these articles as they have recalled places where they used to live.

We thank you for all the kind words.

## Kinsella Kernels.

Master Frank Anderson, of Edmonton, is spending a few weeks holiday with Mrs. McKie and family.

Mr. W. L. Ferries and Miss K. Ferries left by car on Sunday for a holiday at the coast.

Mr. Donald Witton of Edmonton is visiting with his brothers, Messrs. R. and L. Witton.

Miss Edith Corbett of Wetaskiwin is spending the holidays with her parents.

Mrs. Burnett and Sybil left last week for a short visit with friends and relatives in Saskatchewan.

Miss Violet Williams and Miss Laura Mark are spending exhibition week in the city.

Mr. O. Watson and Miss Marian Watson spent Thursday, Friday of last week in Edmonton.

## Sports of All Sorts.

Bob Gray of Windsor was playing in the golf tournament at Fonthill, Ont. where some \$4000 in prizes looked most enticing. But Bob was missing some easy shots. So he whispered to his wife to make herself invisible by scooting to the clubhouse. Now was that nice I ask you? His nervousness combined with what she could produce as a spectator, was too much for him to control. Those who believe in "Telepathy" will say Bob was right.

For the past six years Harry Kinloch has been tops in tennis in Edmonton. His master position was undisputed until Purcell swung into action, last Friday and demonstrated that he could wield a racket as well as a hockey stick. It was a big upset. But these young chaps who persist in developing scientific strokes, are bound to oust the older men. Youth plus science overcome age and strategy at times. Purcell became champion by ousting McFadden in the finals.

They say that the teams topping the National and American League on July 4th will end the season in that position. Everybody is entitled to a guess on this. Put down your choice now in your little notebook, make a bet with yourself, and get some fun at the end of the season. We would not be surprised if the two New York teams faced each other again this year in the World Series.

A team of five Edmonton cyclists entered the race from Winnipeg to Kenora, last Saturday. Over muddy roads for 148 miles proved a real test of stamina. Charlie Huggins of Winnipeg headed the parade into the Ontario town but right after him came the Edmonton boys, second, third, fourth, fifth and sixth. There were 45 starters in this gruelling race. Such a result is most remarkable, placing the boys from Alberta in a class by themselves.

A British newspaper put up a prize of \$2500 for the winner of a golf match between Denny Shute and the British Open champion Henry Cotton, 36 holes on one day and 36 holes the day following. It seems that there is real money to be made by the fellows who know how to swing their clubs and hit the elusive little white pill. There used to be some enthusiasts around V'king, but sleeping sickness has evidently found victims.

## SASKATOON EXHIBITION JULY 19 TO 24

People of the Viking and Irma districts who make their annual holiday trip to the Saskatoon Exhibition this year, July 19 to 24, are assured of an enjoyable outing, according to reports.

Word has been received from S. W. Johns, manager of the Saskatoon Exhibition, that entertainment values at the fair this year will be outstanding. The outstanding show, under the caption of "Cavalcade of Hits," has been produced by Ernie Young of Chicago, who brought the attractions to the exhibition last year. A review in the Brandon Daily Sun said the show set a new standard for outdoor entertainment and was the best yet seen on the "A" fair circuit.

Royal American shows will provide the midway carnival. Entries in the exhibit sections are heavy this year with stock arriving from Alberta, Manitoba and Ontario, as well as Saskatchewan, to compete in the judging ring. Other features of the exhibition will include a program of running races each day, a 16-team baseball tournament and the Traveller's Day Parade on Friday.

## CAMP LAKE CAMP NEWS

A lively bunch of boys are enjoying themselves to the full at Camp Lake. Though not as large a group as some years, they lack nothing in true camp spirit, and are busying themselves with some original as well as traditional camp activities. Rev. Mr. Longmire, newly inducted minister of Irma, and Ted Stephens of Edmonton are both very popular leaders.

The girls' camp, which will be a very large one, begins on the 15th. Sunday is visitor's day and friends of the campers are invited to attend the afternoon service at 3 o'clock.

## SEARLE GRAIN CO., FABYAN, WEEKLY RAINFALL REPORT

Week Ending July 8th  
No rain since June 23rd to date.  
Since April 1st, 4.58 inches.  
Same period last year, 3.11 inches.

## Philip G. Johnson In Charge of New Airways System

Montreal, Que., June 30.—S.J. Hunsford, president of Trans-Canada Air Lines, announced today the appointment of Philip G. Johnson as vice-president in charge of operations of the new airways system. An executive with international reputation, who has organized during the past ten years several of the principal air transport services in the U. S., including the United Airlines, Mr. Johnson was asked to give the new Canadian airways project the benefit of his experience by undertaking the creation of complete organization for operation.

## WARSHIP LIGHTS IN SKY

Four warship searchlights, formerly aboard the U. S. Charleston, will flit through the sky when Royal American Shows are in Saskatoon the week of July 19 to 24 for the Saskatoon Exhibition. These lights have a combined intensity of one billion candle-power and have been seen a distance of more than 50 miles. They are among the many free attractions on the world's largest midway.

## Ladies' Aid Meet

The regular meeting of the Ladies' Aid was held at the home of Mrs. W. N. Frickleton; Mrs. J. Fenton, past president, in the chair, with Mrs. Tripp acting secretary. The meeting opened with hymn 334; Mrs. Locke took the devotionals, reading the 4th chapter of John, and leading in prayer. At this meeting it was decided to have a supper at King's Park on August 4th. Proceeds in aid of repairing the church. Supper to be served from 5 to 8 p.m. Mrs. E. W. Carter gave an interesting paper on "Why I am a member of the Ladies' Aid" and pointed out so many good points it made us feel we were all proud to be a member of this society which can do so much good both in the church and out. The meeting closed with the watchword.

—Mrs. Tripp, Sec'y pro tem.

## Women's Institute

The W. I. are sponsoring a dental clinic on Wednesday, July 28th. Dr. Courcier will be the dentist in charge. Pre-school and high and public school children who have not the advantage of being able to have dental work done, are eligible. Will all parents wishing to have their children attended to please give their names in to any Institute member in their district or send names in to the secretary as soon as possible, as the list has to be prepared in good time.

—Mrs. C. Wilbraham, Sec'y.

## Anglican Church Notes

Service will be held in St. Mary's church on Sunday, July 25th, at 3 p.m. Owing to the Old Timers' Picnic being held on Wednesday, July 21st, the garden party at Mrs. H. Carter's will be held Wednesday, July 28th.

## Confidence Restored

The recent announcement of Prime Minister Neville Chamberlain and Foreign Secretary Anthony Eden of Great Britain's intention to face her responsibilities by rearing as speedily as possible and to such an extent that "nobody dare treat her with anything but respect" will fall on a receptive and welcoming ear, not only within Great Britain and the Empire but in other countries who look to Britain for leadership in the task of preserving the democratic form of government.

There is no question but that Britain has "lost face", to use an Oriental expression, during the past two or three years, because of her failure to take a stand in the councils of the League of Nations strong enough to prevent the rights of member nations being violated.

Representative newspaper and magazine writers in some of the smaller democratic countries of Europe, such as the Scandinavian group, who have been wont to look to Britain for leadership and who, at any rate in recent years, have been strong friends of Great Britain have, in the past year or two voiced keen disappointment at the situation and more particularly have expressed criticism over the Ethiopian debacle.

But there was a very good reason why Britain could not go further than she did in attempts to enforce sanctions against Italy as the violator of Abyssinia. No one knew better than the British representatives on the councils of the League that if coercive measures were needed to prevent despoliation of the northern African kingdom she was not in a position to ensure that these methods were carried out.

The British war machine, and particularly the aerial arm of it, had been allowed to become obsolete and no efforts had been made to bring it up to date; or, conversely, it might be more correct to say that other and more belligerent nations had built up huge destructive forces and little or nothing had been done by Britain to keep pace with their activities.

Under these circumstances it would have been futile for Britain to have displayed a flag which was not heavily mailed or to have uttered threats which she could not finish. Hence, nothing more could be expediently done than advise and negotiate, in the knowledge that anything more forceful might precipitate a disaster which the great majority of nations hoped to avoid. It was a policy of prudence and that was the only policy that could safely be adopted at the time.

Now, however, that is to be changed. Great Britain has already commenced an active and ambitious program of rearmament which, in a year or two at the outside, will enable her to resume her role as leader of the European and world democracies in the full knowledge and certainty that the utterances and decisions of her representatives will be respected by even the most powerful and belligerent of nations.

The general objective of the program was aptly expressed by Prime Minister Chamberlain when he told his constituents that it was the aim to make Britain so strong "that nobody dare treat her with anything but respect" and his additional announcement that he faced his responsibilities "without fear or hesitation" will inspire confidence not only in Britain but in many other countries who are genuinely anxious to preserve world peace, as is Britain herself.

Confidence will be further fortified by the supplemental declaration of Sir Anthony Eden that immediate and specific objectives are preservation of the territorial integrity of Spain and the maintenance of the Mediterranean as a main arterial road for the flags of all nations.

Both these objectives have been threatened in recent weeks as the war in Spain progresses. The dismemberment and even the potential dismemberment, of Spain would undoubtedly precipitate a general conflagration in which all the European countries might ultimately become involved and that is what the majority of the non-belligerent nations of Europe fear so much to-day.

Despite the declarations of individual visitors from Europe to this continent to the effect that a general war will be avoided, it is generally recognized on both sides of the Atlantic that the trend of events in Spain, coupled with a great deal of outside interference, constitutes a grave danger to the peace of Europe and perhaps of the world.

A strong and well-armed Britain, with no ulterior motive to serve, will go a long way to allay such alarms and will do much to ensure peace in Europe and security for the democratic countries of that continent.

### Something New To Try

According to the Christian Science Monitor, to Horace Greeley, the famous editor, a woman once wrote: "Our church is in dire financial straits. We have tried every device to keep it going—fairs, strawberry festivals, oyster suppers, a donkey party, turkey banquets, Japanese weddings, mock marriages, and box societies. Will you please tell us, Mr. Greeley, what we can do to keep our struggling church from disbanding?"

### Starts Annual Patrol

The N. B. McLean, the biggest unit of the government icebreaking fleet, has sailed from here on her annual 5,000-mile patrol in Hudson Bay and strait. The ship, under Capt. W. J. Balcom, formerly of Halifax, will be away until October.

Visitor: "Your son is rather small for his age, isn't he?"  
Proud Mother: "Oh, no; most boys of his age are overgrown, I think."

Italy used safety pins 3,000 years ago.

### BLACKHEADS

Don't squeeze blackheads—dissolve them. Get two ounces of peroxide powder from any drug store and rub gently with wet, hot cloth over the blackheads. They simply dissolve and disappear by this safe and sure method. Have a Hollywood complexion.

### Trees For The Prairie

Since the program of work under the Prairie Rehabilitation Act was begun in 1935, a total of 960,440 trees have been supplied free for planting in the prairie provinces. District experiment substations took 77,730 in 1935 and 1936; Agricultural improvement associations, 229,380, and field crops shelter belts associations 653,330. In addition, the regular free distribution of trees from Indian Head and Sutherland nursery stations in 1935 and 1936 totalled 11,828,834. From 1901 to 1936, these two shelters have distributed free to farmers in the three prairie provinces over 150 million trees.

"I am grateful to you for the confidence you have reposed in me," orated the winning candidate.

"All right," said a voice in the rear, "but don't do any more reposing. Get busy."

It takes four to eight times as much soap to make a satisfactory cleansing lather when hard water is used than when soft water is available, depending on the degree of hardness of the water.

In comparison with human eyes, the eyes of most birds are telescopic. A small grain particle hardly distinguished by a person standing a yard away from it, is seen 100 yards by some birds.

### Multiplicity Of Duties

#### Royal Canadian Mounted Police In Northwest Territories Kept Busy

Wherever the scientist, explorer, prospector and surveyor goes in the Northwest Territories he finds the Royal Canadian Mounted Police to help him. And he finds the Mounties represents just about a dozen kinds of officialdom.

A government statement dealing with the Northwest Territories disclosed the information that "the prevention of lawlessness and apprehension of offenders are but a part of the multiplicity of duties performed by members of the force."

"They are entrusted also with enforcement of the Northwest Game Act, the Migratory Birds Convention Act and various other Dominion acts."

In certain circumstances they are called on to assume customs and immigration duties, to collect income taxes, accept applications for naturalization, act as postmasters, mining recorders or coroners; to issue timber permits, pay wolf and coyote bounties, register vital statistics, issue rations to destitute Eskimos and Indians and supervise liquor permits and importation of liquor.

All commissioned officers are justices of the peace and all ranks are commissioners for administering oaths. Sheriff of the Northwest Territories is Major-General Sir James H. MacBrine, commissioner of the R.C.M.P.

The force has men at 22 points. Along the Mackenzie basin they are stationed at Resolution, Providence, Simpson, Norman, Good Hope, Arctic Red River, Maitland and Aklavik. Scattered along the Arctic shore they are at Coppermine, Cambridge Bay, Cameron Bay, Fort Rae and on the patrol boat "St. Roch."

In the Slave River area is a station at Fort Smith, in the Hudson Bay area, at Chesterfield and on McLeod Bay at Reliance. Farther east are posts at Port Burwell, Eskimo Point, Lake Harbor, Pangnirtung, Pond Inlet and Craig Harbor.

### Forfeits Crown For Love

#### Prince Charles Of Sweden Marries Countess Elsa Von Rosen, A Commoner

Prince Charles of Sweden sacrificed any chance of inheriting the throne when he married Countess Elsa von Rosen, a commoner.

The nephew of King Gustaf V. of Sweden who, in the late Queen Astrid of the Belgians, lost his title and prerogatives in the Swedish royal family.

He acquired a new title, however, becoming by royal decree Prince Charles Bernadotte. His bride, daughter of the Swedish court master of ceremonies, became Princess Elsa.

Prince Charles was the third member of the Swedish royal family in recent years to forfeit his crown rights for love.

The new prince, seven years older than her 26-year-old husband, was divorced in 1935 from M. Agliss von Rosen. She has three children.

### Lonely Island Was Safer

#### Civilization Proved Too Much For Boy From Tristan da Cunha

Civilization proved too much for the youth who left the loneliest isle of the world. After less than a year in London he died.

Donald Glass was a direct descendant of the settlement at Tristan da Cunha, in the South Atlantic, more than a century ago.

Donald led a happy life, where disease is virtually unknown, determined to succeed in the great world. He was accepted by the Boy Scouts who tried to make life for him something like that in the home from where he came, but they failed to consider the germs that afflict civilization. He fell ill and gradually declined.

### Job Was Thorough

#### Crude Operation By Amateur Surgeon Probably Saved Man's Life

A crude operation performed with a fishline and a net-mending needle appeared to have saved the life of a man badly torn by a rusty spike on lonely San Miguel Island.

Despite twelve days he spent tossing with pain while passing boats overlooked his distress signal, Robert L. Brooks, the injured man, was expected to survive.

Brooks, lessee of the windswept speck in the Channel Islands chain off Southern California, slipped while repairing a wharf two weeks ago and a spike ripped a gaping wound in his thigh.

San Miguel is without a doctor, a boat, or any means of communication with the mainland. No ship was due for weeks.

Realizing that Brooks would bleed to death unless the wound was closed, Herbert Lever, only man on the island, set to work. Lever, shell-shocked World War veteran, lives on San Miguel with his wife and two children, and works for Brooks.

He boiled a fishline and the needle he used to repair fish nets. While the injured man grutted his nails into the bunk and gnashed his teeth, Lever sewed up the wound without anaesthetic. He prayed while he sewed.

For twelve days no passing craft heeded their distress signal—the American flag flying upside down. Then the motorship Vasquez of Santa Barbara arrived four days ahead of time with supplies. It rushed Brooks ashore.

Physicians at Cottage Hospital said the amateur surgeon was so thorough that no infection developed.

### Selling Canada's Wheat

#### Publicity Campaign In Britain Planned With Care

The Canadian Wheat Board sends us a brochure containing handsome, eye-printed reproductions of the material used in its United Kingdom advertising campaign.

The board says that so far as it knows this was "the first attempt which has been made by any wheat-exporting country to promote the sale of its wheat by advertising and publicity work."

The campaign was planned with great care. Advertisements designed for their respective fields were used in the newspapers of England, Scotland, Northern Ireland, emphasizing the advantages of Canadian hard wheat in the making of bread. At the same time a series of advertisements in trade journals was addressed to millers, bakers and retailers.

The Canadian Wheat Board is dealing with a product of unexcelled quality, trying to increase its sale in the rich and concentrated market of the United Kingdom, and its campaign appears equal to the occasion.—Ottawa Journal.

### Was Infraction Of Law

#### Man Found His Neighbourly Act Cost Him Pliny

It cost George Thies of Mennon, Sask., just \$25 to be a good neighbor. He undertook to transport the band from this town, 28 miles northwest of Saskatoon, a few miles to a picnic recently but before he had done his good turn he met up with the law. He was fined in Royal Canadian Mounted Police court for infraction of the vehicles act by carrying passengers in a truck.

A motorist driving 45 miles an hour steadily for 10 hours a day would require 13 years, 10 months, and 21 days to travel over all the improved roads of the United States.

From here it is beginning to appear that trying to get rid of relief is much like trying to throw away a wad of chewing gum, says Judge.

Hamburg, Germany, has a population of more than 1,128,000.

"Wouldn't it be a joke if you was to peg out with only half year blinkin' sentence done?"—Everybody's, London.

### Festival Date Changed

#### Set Back One Month When Delegates Met At Moose Jaw

Dates for the 1938 provincial music festival were set back a month as delegates from five provinces concluded the 12th annual conference of the Western Canada Music Festival Associations at Moose Jaw. Next year the Saskatchewan festivals at Saskatoon and Regina will take place the latter part of April, from April 25-30. At present, no definite arrangement has been made as to whether Regina or Saskatoon will conduct its festival first. So far, the old arrangement will be followed, whereby in 1938 Regina will be first, Saskatoon second.

In 1937, the festivals took place during the last week in May. Delegates were present from Saskatchewan, Manitoba, Alberta, British Columbia and Quebec.

Represented for the first time at the conference was the Quebec Musical Competition festival which held its first festival this year in Montreal. The organization was represented by R. Willis, Montreal.

Adjudicators for 1938 will be Sir Hugh Robertson, Glasgow, Scotland, who will adjudicate choral and vocal competitions; Maurice Jacobson, London, instrumental and choral adjudicator, and Stewart Wilson, London, who will also adjudicate vocal competitions. Mr. Wilson is new to Canada, but Sir Hugh Robertson has been in the Dominion on several occasions as adjudicator. Mr. Jacobson has been here once before.

In 1939, the same three adjudicators who recently completed their tour of Canadian festivals will return: Dr. J. F. Staton, George Dodds and Arthur Benjamin.

Dates for the 1938 and 1939 were set recently, as delegates pushed through to completion in two days a session originally scheduled to last three days.

### SELECTED RECIPES

#### PICKLE RELISH

- 2 qts. cucumbers
  - 2 qts. onions
  - 1 lb. cauliflower or cabbage
  - 3 peppers, red or green
  - 1/2 gallon mild vinegar
  - 6 cups brown sugar
  - 2 cups Crown Brand Corn Syrup
  - 1/2 cup Benson's Corn Starch
  - 1/2 cup mustard
  - 1/2 teaspoon tumeric powder
  - 2 ozs. mustard seed
  - 2 ozs. celery seed
- Method: Chop all vegetables fine. Let stand in brine overnight (1/2 cup salt to each quart water). Drain. Make a syrup of vinegar (reserving 1/2 cup for dressing), sugar and Crown Brand Corn Syrup, add vegetables and let come to boil. Make a dressing of Benson's Corn Starch, seasonings, spices and 1/2 cup cold vinegar. Stir into hot mixture. Again bring to the boil; seal in sterile jars. Makes 5 pints.

### Had Successful Year

#### Canada's Fishing Industry Showed Big Increase In 1936

Canada's fisheries in 1936 experienced the most successful year since 1930, the Dominion reported.

Value of production in 1936 was \$39,164,618, the total representing the value of fish as marketed, whether sold for consumption fresh or as canned, smoked, dried and other forms. It showed an increase over 1932, low year of the depression period, of \$13,207,509 or 51 per cent.

Total quantity of fish taken by Canadian fishermen during 1936 was 11,088,270 cwt., with a value at the point of landing of \$2,083,742, compared with a catch of 9,532,016 cwt. and a value of \$2,755,787 in 1935.

### Easy To Identify

When the police of Hermanus, South Africa, inspected the trail of a barefoot burglar, who had stolen \$100, the Sherlock Holmes instinct told them the capture should be easy. One of the big toes was peculiarly formed. All the well-known jail characters passed inspection, and the trail finally led to N. Cupido, an amateur burglar, who was sentenced to four months hard labor.

Moonlight has an intensity about one-fourth of a foot candle; bright sunlight at noon has an intensity of about 10,000 foot candles.

### Left Legacy For Poor

#### But Town In Scotland Has No People Who Qualify

There is a small town in Aberdeenshire, Scotland, called Turfiff, with a population of over 2,000, who are a very proud people. That is not to say they are conceited, or affect a lofty attitude toward other communities. The colloquial name for it is "Turra," and the locals have a slogan: "Tak awa Turra an' twal miles roon and whau are ye?" If you don't know what that means well interpret: "Take away Turfiff and twelve miles around and what is left of the universe that is worth while?" That's the sort of people they are in "Turra." They regard their town and environs and the people within as the hub of humanity.

Turfiff has really justification to boast though. Recently a native of the town died in New Zealand and made a bequest of \$25,000 for the poor of Turfiff. That is where the Town Council is in a pickle. There are no poor in Turfiff and the administrators cannot carry out the terms of the gift because there is nobody to give any part of the money to. Pending some solution, or the improbability that some of the local folks will go broke, the \$25,000 has been handed over to the custody of the County Council.

A place of that kind surely lives up to the distinction which it confers upon itself.—St. Thomas Times-Journal.

### A Modern Pastime

#### Many People Before Public Eye Receive Fan Mail

A writer in the Manchester Guardian considers a trend of to-day that is new and astonishing in vastness—"fan mail."

"Thousands and thousands of these letters are posted every day. It began with actors and actresses, singers and other public entertainers who have for years received letters from their admirers, but as soon as the cinema became the chief medium of entertainment girls and boys, and principally girls began to write to the film stars and fan mail really began. Now it is not confined to film stars, but extends to prime ministers, as we heard from Stanley Baldwin. It extends to anyone who comes before the public eye, even to wrongdoers....

"It is rarely, however, that any one speaks of his pastime. It is a private matter between himself and the adored one, for most of the letters are tributes of admiration."

### Accurate Information

#### Milwaukee Has Plan To Determine What Visitors Spend

H. B. Cowan, Jr., manager of the Examiner's circulation department is just back from attending a convention at Milwaukee and reports an interesting plan by which the Milwaukee Association of Commerce gets accurate information as to the extent of the expenditures made by visitors to the city. Every delegate to a convention receives a questionnaire which he is asked to fill out showing where he stayed, what stores his chief purchases were made at and how much he spent on shelter, amusement and other things, the information to be regarded as strictly confidential.—Peterborough Examiner.

Argentina, Canada, China, Great Britain, India, the Netherlands, and the United States are the most important markets for German watches and clocks.

Berlin is now the third largest city in the world, next to New York and London.

The yearly average of forest fires in the United States is 4,700.

## LOCALS

Mrs. Locke's sister, Mrs. Sellar, of Edmonton, is visiting here for a week.

A number of Irma folks are attending the Edmonton exhibition this week.

Mr. G. A. Tripp and Mr. and Mrs. B. A. Clelland returned home last week from their visit in the East.

Wait for the big party at King's park on Wednesday, August 4th, sponsored by the Irma Ladies' Aid.

Rev. E. Longmire and a number of Irma boys are enjoying a week at Camp Lake with other Trail Ranger and Tuxis groups.

Mrs. Minnie Birks of Toronto, a sister of Mr. Locke, arrived Monday afternoon for a few days' visit with the Lockes and Elford families.

Mr. Ed. Sharkey and sister Rose arrived home from Edmonton last week. Ed. is resting up after his recent operation in Edmonton.

A nice supply of moisture was received in the Irma district on Wednesday of this week. This will help the late sown grain immensely.

Mr. and Mrs. H. W. Love and Mr. and Mrs. Jack Wilson and children of Edmonton visited with relatives and friends at Irma last Saturday and Sunday.

The Canadian Legion sports scheduled for Wednesday, July 14, had to be called off on account of rain. This is the first case of this kind that we have heard of for many moons.

Several carloads of Irma folks took in the L. O. L. celebration at Mannville on the 12th and report some good ball games. The girls' softball team failed to win but they played well and gave the others a run for their money.

Miss. John Ostad, T. Marsden, Leslie Robertson and H. Halvorsen took a trip to Long Lake last Friday for a few days' fishing. They arrived home Sunday afternoon and report a wonderful time and were successful in catching 43 nice fish.

On July 12th Mr. A. H. Locke received word of the death of his sister, Mrs. Clarence Young, of Banff, on Sunday last. Mr. Locke and Mr. E. H. Simmons left for Banff later in the day. The sympathy of Irma friends is extended to Mr. Locke and family.

The Roseberry and Alma Mater Ladies' Aid will hold their next meeting on Thursday, July 22nd, at the home of Mrs. J. C. McLean. The hostesses are Mrs. W. Steele and Mrs. Williamson. The devotional part of the program will be taken by Mrs. Anderson.

A report has been received in Irma that Mr. Thos. McLean, formerly teller in the Bank of Montreal here, and Miss Molly Wain are being married in Buckie, Scotland, on August 4th. Tommy made a host of friends while he was here, who extend best wishes in this new venture.

Mr. Thos. McGrane, proprietor of the McGrane Printing Co., of Saskatoon, arrived in Irma last Saturday on his motorcycle for a few days' visit with his brother, Rev. Fr. J. E. McGrane. On Sunday afternoon while taking a ride around town the machine hit an obstruction which caused the machine to topple over, throwing Mr. McGrane to the ground and breaking his collar bone. His brother took him to the Hardisty hospital, where he is being cared for.

Instead of baking custards in the oven, try cooking them in cups placed in a kettle of water on top of the stove. If water is kept boiling the custard will be perfectly cooked.

## Holden Team Wins Sports Ball Finals

(From the Viking News)

A baseball tournament was the feature attraction at the Viking sports held on July 7th. Teams from Vegreville, Irma, Holden and Viking were out to win the big money and played before a large crowd that enjoyed the games even if the scores were a little lopsided.

Holden fielded a 'good' team and took the opener from Viking by the score of 11 to 3. Several costly errors on the part of the home team helped put the game on ice for Holden.

In the second game, Vegreville took Irma into camp by the score of 10 to 2. Both visiting teams displayed plenty of pep and action, Vegreville getting the breaks and the scores.

In the finals, with Clark pitching, Holden played almost errorless ball to defeat Vegreville 11 to 3. The Holdensites fell on the slants offered up by the Vegreville mound artist, for two-baggers, three-baggers and home runs. Before the game commenced the bets on who would win were about even. The Vegreville team did not play up to form in the final, while Holden played winning ball. Art Horton umpired all games to the satisfaction of all.

Jack Slavik, local manager, broadcast each game play by play in big league fashion over a loud speaker system, his stentorian voice being heard all over the grounds. The outfit was owned by Frank Wright, of Wainwright.

In the softball tournament, the Viking All Stars defeated East Viking 15 to 7; Poplar Hill took Irma into camp 20 to 10; then the All Stars won over Poplar Hill 17 to 9.

The horse races proved a real attraction and were well handled by O. Fitzmaurice and D. Maxwell. More interest is shown in the horse races each year.

Following are results of the races:

**Free-For-All**  
1st—Clover Lodge Favorite, Jockey A. Currie, owned by J. Currie.  
2nd—Myrtle B, jockey and owner, J. Hamilton.  
3rd—Blueberry, Jockey Miss Lester, owner J. Hamilton.  
4th—Sundown, jockey and owner, J. McKie.

**Pony Race**  
1st—Flying Ace, Jockey Paddy Ryan, owner C. Shownta.  
2nd—White Rose, jockey and owner, J. Hamilton.

**Shetland Pony**  
1st—Paddy O'Neill, jockey and owner, Leo Kelly.  
2nd—I'm Coming, jockey Junior Broughton, owner Gerald Darrah.  
3rd—Tinty, jockey J. Taylor, owner Allen.

The lunch booth conducted by the ladies of the C.W.I., the concessions and the refreshment stand were all well patronized.

A number of kiddies' races were run off and each contestant given something to spend at the booths. Kieffer's show and the dance at night in the Elks' hall wound up a successful sports day.

Always remove egg stains on table linen before sending to the laundry. Soak linen in cold water to remove stains. Hot water sets them.

To remove peach stains from linens, stretch the stain across a bowl and pour boiling water through it until the stain disappears.

## HEALTH

A HEALTH SERVICE OF THE CANADIAN MEDICAL ASSOCIATION AND LIFE INSURANCE COMPANIES IN CANADA

SUN TAN

Sun Worship reaches back to pre-historic times. Each race had its own sun god. The Greeks called on Apollo; the Persians to Mithras and the ancient Egyptians to Ra. The instinct of ancient peoples in regard to the health value of the sun was universal. There is no doubt of the beneficence of the sun's rays when properly used, but those rays may be a two-edged sword.

One feels more cheerful on a sunny day than if the sky is overcast or the rain falling in torrents. Sunlight is essential to vegetation. It is almost essential to health. The ultra-violet rays of the sun have a profound effect on many foods. Thus fats and oils, which, either artificially or through nature have been activated by sunlight, protect the user against the disease known as rickets. The exposure of the skin to sunlight or to the ultra violet light of proper wave length acts on the epidermal in one's skin and prevents the waste of calcium and phosphorus that might otherwise occur. The preservation of these elements of bone formation aids in the prevention of rickets. The use of cod-liver oil has a similar effect because cod-liver is really bottled sunshine.

Some of the bone and skin results of tuberculosis are improved by the ultra violet rays of the sun if these are properly applied.

Within recent years young men and young women have sought a tanned skin. One sees them at bathing beaches and elsewhere exposing large areas of the surface of the body in the effort to obtain a rapid tan. In many cases the results are little short of disastrous. Normal and apparently healthy persons may be made seriously ill by inordinate exposure to sunlight. A sunburn of considerable extent is simply a burn like any burn caused by exposure to fire. It is exquisitely painful. There may be prostration, high fever and evidence of kidney derangement. Every summer sees a host of self-selected martyrs to the sun's rays.

Blondes and redheads are among the chief sufferers in this respect. Fair-skinned persons have little pigment in their skins. They lack this natural protection against the sun's rays. Such persons do not tan as dark-skinned ones do. A two weeks holiday is frequently spoiled by a sunburn acquired during a single week-end.

Everyone seeking a coat of tan should have the sunbath applied very gradually and never over a wide area of the body. This is especially true of blonds and little children.

If unfortunately, one gets a sunburn, there is nothing better for it than the application of a towel soaked in a saturated solution of Epsom salts.

By John W. S. McCullough, M.D., D.P.H.

**GAS IS CHEAPEST IN CANADA AND U. S.**

Prices are the chief things by which the public knows the oil industry and they are the least understood perhaps, even by oil men themselves.

Prices have been the cause, or have been used as the cause of legislative and legal investigations of the oil industry, and of suits against and within the industry. No other industry has had its prices and methods and family rows so well ventilated in investigations and court actions as the oil industry.

Strange as it may seem to those who may be the chief critics of the industry, oil prices from the well to the consumer, are fixed almost wholly by one factor, namely, competition; just as they are in practically every other business under the sun. There are, of course, other factors which have varying influences on price fluctuations.

But the fact remains that the people in Canada and the United States are fortunate in being able to purchase their oil fuel at figures lower than any other part of the world. Auto travel is cheaper because of cheap gasoline. At the time for instance when gasoline was 17.9 cents per United States gallon in Minneapolis it was 51.4 cents in Paris, 53 cents in Berlin, 31 cents in London, England, where volume is many times any Canadian centre, 47 cents in Warsaw, and 17 1/2 cents plus tax in Montreal. All prices are governed by the world price of crude oil.—Cont.

A space should be left between the walls of the refrigerator and dishes containing food to allow free circulation of air.

One teaspoon of vinegar added to one cup of sweet milk will turn it in to sour milk. Let it stand for three minutes before using.

## The World of Wheat

By H. G. L. Strange, Director, Research Department, Searle Grain Company, Limited

The drought consumes us, there on high; The hills are parched, the streams are dry.

The drought consumes us. Still I strive. And will not leave while I survive.

—Chinese poem about 900 B.C. from the Shi King Collection of Confucius. Devastating droughts, as we can perceive from this ancient Chinese classic, is no new thing.

Striving against the difficulties of drought, too, it seems, is not new, for it has been the common rule in all ages with those who till the furrowed face of the land.

For six, in some places eight, long dry dreary years, the farmers of southern Saskatchewan have demonstrated to the world their determination to strive. Each spring, with gradually diminishing resources, these courageous people, in keeping with the ancient spirit as shown in the Chinese classical poem, have seeded and cultivated the land with faith and hope.

Unfortunately to survive in farming requires more than faith and hope. Material resources which cost money are vital necessities too.

In the dry area many have come to the end of their material resources. Let us hope that these splendid farmers; these most courageous Canadian citizens; may be saved not only for Western Canada but for Saskatchewan itself, by being reestablished somehow among fellow farmers in known good rainfall areas of the province.

The following factors have tended to raise price; Worst drought in history of Western Canada may produce lowest yield per acre on record; Rust damaging U.S.A. winter wheat crop; Rust spots appearing in U.S.A. and Canadian spring wheat crop; Evidence money inflation beginning to have effect in raising commodity prices in general; Fear of war in Occidental and Oriental countries.

Following factors have tended to lower price: European countries using substitutes for wheat in bread; World demands for wheat decline as prices advance; Larger wheat acreage expected in Argentina; U.S. private wheat estimates well maintained; Winter wheat and rye harvest begins in Europe; Exportable wheat surplus expected in Roumania; Algerian harvest under way; Fig crop larger in Greece.

"You say your best girl's name is Menagerie? You must mean Margery," said a friend to a fellow at the Holden dance.

"Yes, but I call her Menagerie," he said.

"Why do you call her that?" he was asked.

"Well, you see she has a deer face, raven hair, bear knees, snakey eyes and pigeon toes," was the reply.

.....

"Why is it that you always mention the gay dress and the decorations of the bride and never say anything about how the groom is dressed?" asked a curious correspondent.

Unnecessary to mention the bridegroom; everybody knows he will be dressed in black.

## PROTEST TAX ON USED CARS

Alberta's two per cent retail sales tax, officially known as the Ultimate Purchasers' Tax Act, came in for some severe criticism at the recent meeting in Calgary of directors of the Alberta Motor Association.

Protests were expressed over the sales tax being applied on each sale of the car, after it had been paid in the first place on the original sale.

Instances were given which showed that under the present system this tax was being pyramided, which meant that just that much additional money was being taken out of the pockets of motorists.

If a car changes hands several times in the year, it is subject to the tax on every transfer of ownership.

The unfairness and injustice of this in its application to motorists was brought out forcibly at the A. M. A. meeting, when it was suggested that strong protest should be made to the Provincial Government.

Finally, the board laid the matter on the table to receive action at the next meeting.
